PROJECTS

CAR HUB | GitHub | Live Site

Next.js, TypeScript, Tailwind CSS, Headless UI

Description:

The Car Hub App is a web application built with Next.js, TypeScript, Tailwind CSS, and Headless UI. This application allows users to search for cars, filter them, and view detailed information about individual cars.

Key Features:

- Car Search
- Filter by Fuel Type
- Filter by Model Year
- View Car Details

THE NEWS WIRE | GitHub | Live Site

Next.js, TypeScript, Tailwind CSS, StepZen

Description:

The News App allows users to explore trending news articles from around the world. It's built using Next.js and TypeScript, providing features like news search, article filtering, and a dark theme option.

Key Features:

- Search News
- Read More
- Filter by Category
- Dark Theme

FITNESS APP | GitHub | Live Site

React, Material UI, React Router

Description:

The Fitness App is a React-based application designed to help users discover exercises. It provides exercise search, filtering by muscle group, exercise detail pages, instructional videos, and related exercises.

Key Features:

- Exercise Search
- Target Muscle Group
- Exercise Detail Page
- Watch Exercise Videos
- Related Exercises
